

## Description of the field of habilitation and inauguration proceedings

University of Ss. Cyril and Methodius in Trnava
Nám. J. Herdu 2, 917 01 Trnava
Identification number of the UCM: 036078913
Name of the faculty: Faculty of Natural Sciences
Address of the faculty: Nám. J. Herdu 2, 917 01 Trnava

The University of Ss. Cyril and Methodius in Trnava body for approving the field of habilitation and inauguration proceedings: <b>Internal Quality Evaluation Board of UCM in Trnava</b>
Date of the field of habilitation and inauguration proceedings approval or date of the latest change in the field of habilitation and inauguration proceedings by the University of Ss. Cyril and Methodius in Trnava body: <b>24.07.2022</b>

### 1. Definition of the field of habilitation and inauguration proceedings

- a) Name of the field of habilitation and inauguration proceedings

Molecular biology

- b) Content of the field of habilitation and inauguration proceedings

**The habilitation and inauguration** procedures are carried out in accordance with the Higher Education Act, Ministry of Education Decree No. 246/2019 Coll. on the procedure for obtaining scientific-pedagogical titles of “associate professor” and “professor”, as amended and the internal regulations of the University of Ss. Cyril and Methodius University (UCM) in Trnava. It also complies with the internal regulation of UCM in Trnava 21/2021 on the principles of the habilitation procedure for the award of the title of “associate professor” and the inauguration procedure for the award of the title of “professor” at UCM.

**The criteria for assessing the fulfilment of the requirements** for obtaining the scientific-pedagogical titles or the artistic-pedagogical titles of “associate professor” are determined by the conditions set out in the internal regulation of UCM in Trnava 22/2021, approved by the Scientific Board of UCM on 20.4.2021, which must be fulfilled by candidates for obtaining the scientific-pedagogical title of “associate professor” or “professor”.

The study field of molecular biology involves the knowledge, understanding, and application of knowledge about living organisms of various structural and functional complexity (from viruses to humans) and at different organisation levels (molecule, cell, individual, population, community, ecosystem). The structures, functions, processes, and interactions within the cell and also between cells of living organisms are studied at the level of molecules and macromolecules (mainly DNA, RNA, proteins) involved in the expression of genetic information and are essential for the life of the organism. Particularly, it uses advanced techniques and tools of the genomic and post-genomic era. Receives knowledge and experiences from other biological and natural science disciplines relevant to the study of living organisms and nature as an integrated unit. Molecular biology contributes to the progress of science and scientific knowledges and finds applications in the fields of biotechnology, pharmacology and medicine, agriculture and forestry, industry and environmental protection.

- c) Name and code of the field of study(s) according to the system of fields of study to which the habilitation and inauguration proceedings is assigned<sup>1</sup>

### 3. Biology

- d) Characteristics of the field of habilitation and inauguration proceedings

#### **Associate professor in molecular biology has job responsibilities:**

##### THE FIELD OF EDUCATION

- In collaboration with the professor, contributes to the development of knowledge in the field of study 3. Biology.
- Guarantees or contributes to guaranteeing the quality and development of the bachelor's degree programme in the field of study 3. Biology.
- Conducts lectures and seminars, assesses students, including examinations at state examinations, conducts and opposes final theses.
- Supervises doctoral students.
- Creates study materials.
- Promotes and popularises the study programme in various forms and for various groups of interested persons.

##### THE FIELD OF SCIENCE AND TECHNOLOGY

- Carries out research or development activities, publishes results in scientific and professional journals and presents results at scientific or professional events of international importance.
- Prepares concepts and proposals for research and development programmes and projects.
- Leads research team.
- Organises scientific events.

#### **A professor of molecular biology has work responsibilities:**

##### THE FIELD OF EDUCATION

- Contributes to the advancement of knowledge in the field of study 3. Biology.
- Guarantees or contributes to guaranteeing the quality and development of the study programme in the field of study 3. Biology.

<sup>1</sup> The field of habilitation and inauguration proceedings may be assigned to a maximum of two fields of study.

- Conducts lectures and seminars, assesses students, including examinations at state examinations, and supervises and reviews final theses.
- Supervises doctoral students.
- Creates study materials.
- Promotes and popularizes the study programme in various forms and for various groups of interested students.

#### THE FIELD OF SCIENCE AND TECHNOLOGY

- Formulates trends and concepts in the field of molecular biology.
- Establishes and runs its own scientific school.
- Carries out research and development activities, publishes results in scientific and professional journals and presents them at scientific or professional events of international importance.
- Prepares concepts and proposals for research and development programmes and projects.
- Leads research team.
- Organises international scientific events.

Associate professor as well as professor in the field of Molecular Biology is characterized by independent, critical and analytical thinking. He/she applies his/her own knowledge of theoretical analysis and comprehensive scientific research to solve problems in his/her chosen field. Takes social, scientific, and ethical considerations into account in formulating research objectives and interpreting research results. He/she can design, validate and implement new research and working procedures based on own outputs and findings. He/she independently presents research and development results. He/she can determine the focus of research and coordinate a team in a relevant scientific area, obtain national and international projects.

## 2. The level of education in the field of habilitation and inauguration proceedings

- a) The third level implemented study programmes in the field of study(s) to which the habilitation and inaugural proceedings are assigned are:

100717 Molecular biology (full-time)/ <https://www.portalvs.sk/sk/morho/zobrazit/100717>

100718 Molecular biology (part-time)/ <https://www.portalvs.sk/sk/morho/zobrazit/100718>

- b) The second level implemented study programmes in the field of study(s) to which the habilitation and inaugural proceedings are assigned are:

100677 Applied Biology/ <https://www.portalvs.sk/sk/morho/zobrazit/100677>

- c) Joined first and second level implemented study programmes in the field of study(s) to which the habilitation and inaugural proceedings are assigned are:

107124 Applied Biology / <https://www.portalvs.sk/sk/morho/zobrazit/107124>

## 3. Persons responsible for the habilitation and inauguration proceedings

a) Group of five persons<sup>2</sup>, responsible for the development and quality assurance of the habilitation and inauguration proceedings:

Name and surname	Title	Function	Scientific or artistic activity	
			at the UCM for fixed weekly working hours	in the field of habilitation and inauguration proceeding or in a related field

b) Composition of the Scientific Board of the University of Ss. Cyril and Methodius in Trnava:

<https://www.ucm.sk/en/scientific-board-research/>

Significant expert(s) with professional capacity to assess the habilitation and the inauguration procedure in the field of study to which the habilitation and the inauguration procedure is assigned:

- prof. RNDr. Jaromír Pastorek, DrSc.
- Dr. h. c. prof. Ing. Stanislav Miertuš, DrSc.

c) Composition of the Scientific Board of the faculty of the University of Ss. Cyril and Methodius in Trnava

<http://fpv.ucm.sk/en/management/scientific-board.html>

Significant expert(s) with professional capacity to assess the habilitation and the inauguration procedure in the field of study to which the habilitation and the inauguration procedure is assigned:

- prof. RNDr. Jaromír Pastorek, DrSc.

<sup>2</sup> In the case of a field of habilitation and inauguration proceedings the content of which is related to the preparation of experts for some of the regulated professions with the coordination of education listed in Annex no. 2 of Decree of the Ministry of Education, Science, Research and Sport of the Slovak Republic no. 16/2016 Coll. and is based on the definition of the specializations assigned to the regulated professions in question in Annex no. 3 of Government Regulation no. 296/2010 Coll., it is sufficient to meet this requirement if three persons work at the UCM in the field of habilitation and inauguration proceeding or in a related field for fixed weekly working hours, of these persons at least one of them works in the position of professor and has the title of "professor" and the others are in the position of associate professors and have the title "associate professor". Each of these persons may be responsible for the development and quality assurance of maximum one habilitation and inauguration proceeding at the higher education institution in the Slovak Republic.

- prof. RNDr. Zdenka Gálová, CSc.

d) Other support staff of the field of habilitation and inauguration proceedings
